

OSHA 10 -Hour Course and Its Application to Healthcare

DECEMBER 11 - 13, 2001

LAS VEGAS, NEVADA

The purpose of this OSHA 10-Hour Course is to provide an in-depth discussion on the issues that OSHA feels are important to providing a safe environment and the tools required to complete a Safety and Health Program. This course is geared to healthcare and will focus on areas that are unique to that setting.

Please contact your IHS Area Training Coordinator for registration information, or contact
